

## HOW TO MAKE A FELT ANGEL

You will need 2 felt circles, and a bit of padding, a length of thread, some fabric glue, (glue gun is best), sequins, beads or buttons to decorate.

Cut 2 circles of felt, any size to suit what you have available.

You could also use any stiffish fabric, or put iron on vilene on the Back.

Make a head in the centre of one circle with a bit of padding, or a wooden bead, whatever you have. Tie it tight with cotton thread.

Fold in half and shape the wings as you wish.

Fold the other circle as shown.

Or cut it in half if your fabric is very thick.

Either glue or stitch together and decorate as desired.

Attach a cord or ribbon to hang.  
It needs quite a long loop
